FalcoLite Cycle Shelter

Falco's compilation of high quality cycle shelter solutions have been primarily designed to offer paramount quality and design-led specifications to meet all cycle shelter requirements. The diversity from our cycle shelter collection ensures a cycle shelter to meet all dimensions, shapes, features, orientations and colours to provide endless cycle shelter solutions.

The FalcoLite cycle shelter is one of Falco's most popular cycle shelter designs and triumphs from its simple, curvaceous shape. As the cycle shelter's design overhangs the entrance of the cycle shelter, it provides extra coverage ensuring all bicycles stay dry with integral gutters. Designed with simplicity and cost effectiveness in mind, the FalcoLite cycle shelter is a design led solution to fit within all budgets.

From accommodating 8 cycles in a simple 1 bay unit to providing a mass cycle shelter station, the FalcoLite cycle shelter can be designed to accommodate as many cycles to meet the specifiers' obligations. Available in three distinct variants; single sided, double-sided or cycle compound ensures multiple arrangements to match any space restricting area.

The FalcoLite cycle shelter incorporates integral gutters so that when used as a cycle shelter, there is no rain dripping at the entrance of the shelter. A single unit can be easily extended using 'add-on' units to create a continuous line of covered cycle shelters. As with all Falco cycle shelters, as a stand alone, bolt down unit it is simple to install and under normal operations will remain maintenance free - creating a very low cost of ownership. The cycle shelter is also available with acrylic sheets as an alternative from polycarbonate. By simply adding a cycle rack, Sheffield Stand or Toaster Rack from Falco's comprehensive cycle parking range creates an attractive, matching cycle shelter arrangement.

The FalcoLite cycle shelter is hot dip galvanised to BS EN ISO 1461 and can be polyester powder coated in any of the 192 RAL colours.

For more information about the FalcoLite cycle shelter, or our complete cycle shelter range, please contact our sales team on (01538) 380080.
