FalcoSail Cycle Shelter

The FalcoSail cycle shelter is a great design alternative to the FalcoLite or FalcoQuarter cycle shelter. The FalcoSail is a design led product and from any angle the likeness of a sail ship is unmistakable, making the cycle shelter a very attractive addition to any external environment for use as a waiting, smoking or cycle shelter.

With 3m, 4m and 5m options, there is great scope to extend ... This shelter can hold upwards of 8 cycles in an impressive design led solution. Like all Falco cycle shelters, the FalcoSail is modular in design enabling a shelter to be built up to house any number of cycles in various combinations.

Clad in robust polycarbonate the steelwork is hot dip galvanised to BS EN 1461 and can be powder coated in any of the 192 RAL colours.

The FalcoSail cycle shelter is also available in clear acrylic.

Width: 4000 mm
Depth: 2605 mm
Height: 2300 mm
Head height: 2240 mm
