Distorting Mirrors

A range of mirrored surfaces that distort reality, making us appear very wide or very thin, very tall or very short, depending on the curvature of the mirror. It is a particularly fun installation which can also help us to understand the use of concave and convex mirrors in our daily life. Each element is composed of a highly polished stainless steel mirror-finished reflecting panels mounted onto a stainless tube structure.

Dimensions fat/thin: height 2.020 mm, depth 181 mm,
length 900 mm.
Dimensions big/small: height 1.985 mm, depth 303 mm,
length 1.000 mm.
