### Asia Elegant and Regal Seat

The Asia seat is a design which is both elegant and regal looking. With its long sweeping wooden backrest continuing to the ground, the Asia seat has an oriental feel and looks perfectly at home when placed in a position of importance within a design scheme.

The seat also has two central armrests to give it an individual look and use from the two individual space seats, encouraging people to sit together but with a comfort factor.

The curved back and arm rest coupled with a flat sitting element make the seat a very comfortable piece of furniture.

The seat and back rest are both manufactured from mahogany mounted on a robust steel frame which is galvanised and powder coated in a standard RAL colour. The seat is 1860mm long and 900mm high with a depth of 600mm.

Design: Alessandro Riberti, by Modo.
