

Valentino Seat

The Valentino seat is a well known European design, evoking the 19th Century and the development of public parks and streetscapes.

The design is very robust with main seat supports in cast iron and these are connected using wooden slats for the seat and backrest.

There are two main designs in the range – with or without arm rests. The cast iron supports are coated black and the standard wood is Iroko hardwood (pine also available). The seat is designed for bolt down and requires assembly.

Dimensions: length 1,700mm or 2,000mm, sit height 420mm, overall height 695mm.
